## About me

About me

Over the past year, I've transitioned into software engineering, driven by a passion for technology and its potential to shape the future. While I'm still in the early stages of this journey, I'm committed to leveraging my unique blend of skills to contribute to software projects and teams. Software Engineering & Development: Proficient in C#, .NET, ASP.NET, SQL, and foundational web technologies (HTML/CSS/JavaScript). Dedicated to continuous learning and application in the realm of computer science. Strong problem-solving skills, with a focus on creating efficient and user-friendly solutions. Digital Content & Marketing Background: Former Head of Digital Video at Digital Television Russia (DTR), managing content for over 4 million subscribers. Extensive experience in digital content production, analytics, and project management. Proven track record in advertisement analytics, negotiations, and brand management. My foundation in digital content production and marketing has instilled in me a meticulous attention to detail, an understanding of user engagement, and the ability to navigate complex systems. I'm eager to merge this background with my growing technical expertise to offer a holistic approach to software development.

## Experience

## Experience (1/1)

### Head of Digital Video Department

DTR  
Entertainment

September 2021 - present  
Moscow, Russia

#### My duties

**Project Management & Coordination:** Managed workflow and task prioritization for the design/video department, ensuring efficient resource allocation and timely delivery based on SMM staff requirements.

**Data Analytics & Reporting:** Regularly conducted data-driven analytics, producing reports based on KPIs, highlighting areas for optimization and improvement.

**Technical Oversight:** Spearheaded all streaming and broadcasting operations, demonstrating proficiency in handling both small-scale interviews and larger events with multiple speakers.

**Content Creation & Technical Skills:** Developed multimedia content tailored to specific requirements, showcasing proficiency in video editing, basic 2D motion graphics, and hands-on filming experience.
